11109 **ABC of Violin. Violin Course,**
piano accompaniment € 14,95

An introductory book for absolute beginners suitable for children of all ages. This publication introduces the most important elements of violin technique, containing scales, short exercises, studies and easy pieces. It gradually introduces information and more complicated rhythms like the siciliana, triplets, syncopation and ornamentation. The photos and illustrations make learning more engaging and interesting. [Pol.]

11287 **Scales** € 14, 95

COFALIK Antoni (Ed.)

11184 **Favourite Studies** € 14,95

A great collection of the most valuable etudes by various composers, representing different violin schools – French, German, Russian, Italian and Czech, specially graded from easy-to-play tunes to more challenging pieces. This publication contains pieces aimed at developing left and right hand playing techniques, 'exam' like, plenty of double-stopped etudes and also includes contemporary atonal studies, which attempt to introduce students with this type of music. These pieces were chosen not only to

help develop playing skills, but also to encourage a real pleasure of playing music.

FELIŃSKI Zenon (Ed.)

6126 **Violin Course, Book 1** € 14,95

5423 **Violin Course, Book 2** € 22,95

A very popular violin method, used by several generations of violinists. Book 1 starts with introductory remarks, description of the instrument, posture, positioning of the hands, holding the bow and introduces elementary playing techniques. Among the technical problems included in book 2, priority is given to learning to play in second and third position. It develops the technical challenges contained in book 1. Therefore book 2 introduces a wider range of double stopping, staccato, faster legato, trills, greater bowing variations and other points. [Pol.]

Scale Study € 14,95

This handbook for practicing scales on the violin has been written with three key fundamental aims: consolidating tonality, improving finger technique and developing proficiency. Furthermore, through the use of different bowing articulations, it also contributes to the development of right hand technique.

- 8076 **KROTKIEWSKI** Witold
Double Stops Exercises € 7,95
7062 Scales and Arpeggios, Book 1 € 13,95

This book is intended for the beginner. The scales are limited to the first position; while at the same time, they fulfill the same tonal requirements as full scales. The aim is to master playing techniques by disciplining both hands and subjecting them to the aural and mental control of the pupil.

Easy Double Stops. A Collection of Exercises, Scales and Folk Melodies in the 1st position € 7,95

- 5627 **SCHRADIECK** Henry
Finger Exercises in Seven Positions (Z. Jahnke) € 12,95
Despite the significant lapse of time since the first publication 'Finger Exercises (Studies) in Seven Positions' have not lost their importance and are still

valid as excellent pedagogical material for the development of left hand proficiency. Schradieck's exercises, illustrated with different bowing variations, take into account the problems of the mechanism of both left and right hands. This approach gives the finger exercises considerable variety and allows the pupil to gain more benefit from studying this valuable technical manual.

- 7476 **UMIŃSKA** Eugenia
Study of Scales and Arpeggios € 15,95
This manual is intended for violinists who already possess a basic theoretical and practical knowledge of the instrument. The author relied mainly on Carl Flesch's excellent work 'Das Skalensystem', which is still used all over the world, though her approach is slightly different, which is a result of her own experience as a player and a teacher.

- 9233 **KRZANOWSKA** Grażyna
3 Little Pieces, Cricket € 7,95

This publication contains three compact compositions, intended for performance by violin pupils in primary schools. The combination of two dances (krakowiak, mazurka) and the lively 'Wiwat' allows the pupil to familiarize themselves with various time signatures. Interesting melodies derived from folklore, fascinating sound effects and a variety of bowing and articulation are the main features of these miniatures.

- 10037 **OBIJALSKA** Dorota, **WAWRUK** Marcin
Fiddling Notes or Songs without Words € 15,95

This publication contains eighteen pieces intended for beginners. They supplement the existing repertoire so they encompass a full range of technical matters (also those less common in primary education such as e.g. syncopation, dotted rhythms etc.). The key to success in working with 'Fiddling Notes' is in using the child's musical imagination.

- 2869 **Preparatory Course** € 18,95

This selection of etudes, studies and exercises aims to introduce the viola as an instrument which is larger in size than the violin and requires special techniques for both right and left hand. Its size makes it very difficult to determine the positioning of the left hand, the spacing of the fingers and to strengthen them. These studies are intended to help and prepare for proficiency in playing this demanding instrument.

The idea of this publication is to familiarize the young musician with music based on different dance forms. Each dance is briefly described, the pupil learns about its history, typical rhythmic formula, metre and the style of dance. The descriptions are illustrated by drawings of characteristic dance figures.

A very popular guitar playing handbook. Students start with learning about the instrument: its component parts, the way it should be held, and the co-ordination of fingers and strings. The preface contains general comments on creating sounds and ways of practicing. In the subsequent parts of the method students learn about key signatures, articulation, ways of playing chords and positions etc. Chapters entitled 'Repeating Our Knowledge about Music' help pupils to systematize their knowledge.

- 5748 **Course of Playing the Guitar and Ukulele** € 19,95
This method focuses on just a few, most frequently used and, at the same time, easiest keys. The composer uses mostly classical pieces, without which it would not be possible to study modern guitar music. It is not a complete guide, but provides a necessary foundation and so should facilitate and encourage further study. [Pol.]

Famous Transcriptions

Through the collection Famous Transcriptions we have selected some of the most interesting and creative arrangements of Chopin's music made over the last hundred and fifty years. In reintroducing transcriptions of studies, mazurkas, waltzes or preludes to the repertoire we can show how important a source of inspiration was the music of Chopin, a great Romantic, an inspiring artist and a composer of genius.
