## EDUCATIONAL MUSIC

### ALTBERG Emma

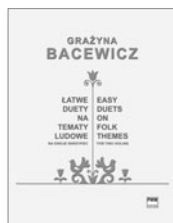

**A Little French Fan.** Selected Pieces for Piano Duet €8,95  
PWM 6078

A little collection, intended for primary schools, avails itself of the little known French didactic repertoire. It includes pieces by contemporary composers of the older generation, written mostly at the beginning of the twentieth century.

### BACEWICZ Grażyna

**Easy Duets on Folk Themes** for Two Violins €10,95  
PWM 11466

The texture of these didactic pieces is fairly simple, but they are not devoid of 'modernist harmonic techniques' aimed at introducing young musicians, amateur musicians and listeners to contemporary music.

**A Little Something**. Duets for Violin  
PWM 11463 €12,95  
Duets have picturesque titles intended to contribute positively to violinists' imagination. They also differ in length from short, 8-measure pieces accessible even

to first-graders, to longer ones which can be performed by junior or senior students. The specially planned construction of the pieces provides the opportunity for both violinists to display their abilities.

PWM 10390

'Magic tree' contains pieces full of different means of expression, not often used in the first stage of education. We will find here for example left hand pizzicato, glissando, effects such as tapping on the soundboard, stomping, shouting and even singing. Their aim is to free and enrich students' expression.

## POLISH CHAMBER MUSIC

The series contains chamber works by leading Polish composers from the 19<sup>th</sup> and 20<sup>th</sup> centuries – trios, quartets and quintets for different instruments. Apart from original pieces composed for chamber ensembles, our series also includes transcriptions of pieces from the orchestral repertoire. Thanks to Polish Chamber Music Series musicians are given chance to recreate the atmosphere of musical salon.

**TRANSCRIPTIONS FOR PIANO AND STRING QUINTET**

The principal objective of these versions of the two Chopin Piano Concertos was to create a suitable reduction of the full orchestral score which accommodates the particular requirements of a small ensemble while remaining as close as possible to the original, a task that had been long overdue and yet hardly attainable, due to the lack of reliable source material.

## TRANSCRIPTIONS FOR ACCORDION TRIO

Janusz Wojtarowicz – accordionist, composer, arranger, music producer, author of music for theatre and film, founder and member of the accordion group Motion Trio arranged the greatest works of Polish composers for accordions. He believes that accordion trio, like string quartet, can become a classical performance ensemble.
